The traditional taste of a distilled spirit combined with the fascination of black: Black Forty is the preferred vodka of original people with strong personalities. The triple distillation of the best quality durum wheat and a slow and careful distillation process allow for a vodka that is both unique and incomparable.

The use of the very best black catechu, a precious spice cultivated in selected regions of India, lends this vodka an intriguing black colour and smooth, balanced taste. Black Forty can be enjoyed plain, on ice or in a variety of surprisingly colourful cocktails mixes.
